Assistant Stylist Application

Dear Hiring Manager,

I am applying for an Assistant Stylist, Salon Associate, or Stylist-in-Training role offering structured education and a clear path to stylist. I am a licensed Texas Cosmetology Operator. I am ready to contribute through guest care and salon support while building advanced skills in women's cutting and hair color.

I bring six years of prior salon experience in Izmir, Turkey. I progressed from shampooing, cleaning, workstation preparation, and stylist support into assistant hairstyling and client services. My experience includes approximately three years with basic women's haircuts and three years with blow-dry and blowout services, which became my strongest technical area.

After moving to the United States and getting married, I focused on building a new life, raising my children, adapting to a new country, and learning English. I spent much of this period as a stay-at-home mother rather than working full time. Now that my children are in school, I am ready to return to the salon profession. My English has improved significantly, although I am still developing fluency, and I am committed to learning every day. I am excited to build on my prior experience and grow into the skilled, well-rounded hairstylist I strive to become.

My eight years coordinating special events and public relations at Merit Royal Hotel & Casino strengthened my organization, communication, and attentive guest-service skills.

I would welcome an interview to learn about your education program and discuss how I could contribute while developing into a stronger, more versatile stylist. With my license now issued, I would be glad to complete a salon-approved technical assessment.

Sincerely,

Fulya Ozgur
